02

Building constructions

Forsa Contracting Company provides comprehensive building construction services, where we design and implement all types of buildings, including residential, commercial and industrial, including civil, architectural and infrastructure works. We work hard to ensure the highest standards of quality and safety in all stages of construction, from laying the foundation to constructing the basic structure and finishing external works.

03

Finishings

Our finishing services cover all types of interior and exterior finishes, including floors, walls, ceilings, and the installation of fixed furniture. We work with the best materials and techniques to achieve aesthetics and functionality for buildings. We also provide customized solutions to suit the needs and requirements of each client.

04

Plastering, plastering and painting

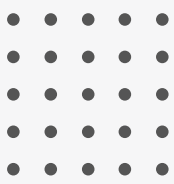

Our company specializes in providing interior and exterior plastering services for buildings, including gypsum works, gypsum decoration and painting. We are keen to provide the best wall finishes that add an aesthetic touch to the building and ensure durability and long-lasting quality. We use high-quality materials and advanced techniques to achieve superior results in plastering, gypsum and painting works, which guarantees exceptional finishes that meet our clients' expectations.

05

Project Management

We provide professional project management services that include project planning, resource management, quality assurance, financial evaluation, and progress monitoring. We ensure that projects are delivered on time and within budget with the highest level of client satisfaction. Our team carefully manages each phase of the project to ensure smooth and efficient workflow.

06

Air conditioning, electricity and plumbing

We provide comprehensive electrical, plumbing and HVAC services for residential, commercial and industrial buildings. Our services include the installation of electrical networks, lighting, security systems, as well as the installation and maintenance of air conditioning, ventilation and heating systems. We also ensure compliance with safety and energy efficiency standards in every project.
